AVIKAM JHA

DevOps | Site Reliability | Platform & Cloud Engineering
Tempe, AZ | (480) 200-3712 | avikamjh@asu.edu | LinkedIn | GitHub

SUMMARY

DevOps and Site Reliability Engineer with nearly 3 years of experience building, automating, and operating cloud infrastructure for a 60+ microservice production platform at Park+, a fast-growing startup, growing from intern to SDE 2. Works across AWS, Azure, and GCP with Kubernetes, Terraform, and CI/CD, and owns reliability through observability, SLOs, incident response, and on-call. Builds AI tooling for operations, including an MCP server and an AI troubleshooting agent. M.S. Computer Engineering at ASU (4.0 GPA, Dec 2026); AWS Solutions Architect – Associate and Terraform Associate certified.

TECHNICAL SKILLS

Cloud: AWS (EC2, EKS, ECS, Lambda, S3, RDS, VPC, IAM, CloudWatch), Microsoft Azure (AKS, Entra ID, Key Vault, Azure Monitor), Google Cloud (GKE, Cloud Run), OCI

Containers & Orchestration: Kubernetes (EKS, AKS, GKE, RKE2, k3s, OpenShift), Docker, Helm, Istio, Operators

Infrastructure as Code: Terraform, OpenTofu, Pulumi, CloudFormation, ARM/Bicep, Ansible, Chef, Puppet

CI/CD & GitOps: GitHub Actions, GitLab CI, Jenkins, Azure DevOps, AWS CodePipeline, Argo CD, Flux

Observability: Prometheus, Grafana, OpenTelemetry, Datadog, ELK, Splunk, PagerDuty; SLOs, incident management, postmortems

Languages: Python, Go, Bash, PowerShell, SQL, Java, JavaScript (Node.js)

Data & Security: PostgreSQL, MySQL, MongoDB, Redis, Kafka, Spark; HashiCorp Vault, IAM, Trivy, Snyk; SOC 2

AI: MCP servers, AI agents, LangChain, LangGraph, RAG, LLM serving; Claude Code, GitHub Copilot

PROFESSIONAL EXPERIENCE

Park+ (Parvion Technologies Pvt. Ltd.), SDE Intern → SDE 1 → SDE 2 *Gurugram, India | Mar 2022 – Jul 2024*

- Built and operated cloud infrastructure for a **60+ microservice** platform running **100+ pods** on Kubernetes, supporting a high-volume consumer parking and mobility product.
- Automated **95%** of environment provisioning with Terraform, Ansible, and Python, cutting setup time from days to **under 45 minutes**.
- Designed and maintained CI/CD pipelines with automated testing, security scanning, and safe rollouts across development, staging, and production.
- Built observability with Prometheus, Grafana, ELK, and OpenTelemetry, defined SLOs, and took part in on-call, reducing mean time to detect by **30%** and mean time to resolve by **40%**.
- Right-sized compute, storage, and databases, cutting infrastructure costs by **30%** while improving performance by **25%**.
- Secured the platform with least-privilege IAM and moved **400+** credentials into HashiCorp Vault, remediating **98% of high-severity findings** for SOC-1/SOC-2 audits.

Winjit Technologies, Software Developer Intern *Nashik, India | Oct 2021 – Feb 2022*

- Migrated a client's on-premises infrastructure to Kubernetes on Microsoft Azure, redesigning the deployment pipeline to cut deployment time by **20%**.

PROJECTS

- **Custom MCP Server with Claude Code:** Built a Python MCP server that connects AI assistants to internal tools and runbooks, cutting repetitive engineering tasks by **~30%**.
- **Kubernetes AI Troubleshooting Agent:** Built an agent that diagnoses and fixes cluster issues, validating AI output before any action, reducing manual triage time by **~40%**.
- **RAG Pipeline & Local LLM:** Built a retrieval pipeline that improved answer relevance by **~25%**, and served a local LLM with sub-200ms response times.

EDUCATION

M.S., Computer Engineering, Arizona State University, Tempe, AZ *Aug 2024 – Dec 2026*
GPA: **4.0**. Coursework: Data Processing at Scale, Artificial Intelligence, Foundations of Algorithms, Computer Architecture 2

B.E., Electronics and Communication Engineering, National Institute of Technology, Delhi *Aug 2022*

CERTIFICATIONS & COMMUNITY

AWS Certified Solutions Architect – Associate | **HashiCorp Certified: Terraform Associate** | AWS Cloud Practitioner | CKA (in progress)

AWS community groups in India; spoke on cloud and DevOps at engineering colleges and mentored students.
